Why a patient should choose treatment at your practice?

We work as a team. We make informed decisions. Our practice offer different modalities of treatment under one roof. We have access to different specialties who will participate in patient's care. We do offer all diagnostic tool requires for better care under one roof.

What is your personal philosophy around patient care?

Help them to learn about their disease and options. Give them enough knowledge so they can make informed decision.

Community Service

He is involved with different organizations for religious and community services.

Why did you become a doctor?

Medicine is just not a profession, it is a noble profession. My passion was to help and educate people. I like to make difference in people's life.
