- Panel Member: Methodist Digestive Institute discussion on pancreatic cancer (2017)
- Invited Speaker: 50 Hoops yearly breakfast for prostate cancer awareness. (2018)

I view patient care as a relationship between a trusted advisor and patient. My goal is to present the possible options and help my patients make the most appropriate decision for themselves and their family. Cancer is a complicated and difficult disease that takes a whole team to defeat.

Community Service

- Chief Resident; Department of Radiation Oncology, University of Florida and the UF Health Proton Therapy Institute (July 2016 – June 2017)
- King of Knights Social Club, Abilene Christian University (2001 – 2002)

Why did you become a doctor?

I became enthralled with cancer biology in college and made it my mission to cure this awful disease.
