Medical Practice

Dr. Daggubati is recognized by Prestigious Centum Club of US Oncology Research for contributing to oncology research.

Other Information

When not taking care of patients, Dr. Daggubati enjoys cooking, traveling and spending time with family.

Why a patient should choose treatment at your practice?

Our patients deserve access to the best cancer care available, the confidence to fight cancer, and the critical support of family and friends nearby. Our community-based approach removes the feeling of isolation being away from home creates and eliminates the strenuous burden of frequent travel for appointments at distant treatment facilities to receive care. The best part is that you find it all in one place and near your support system.

What is your personal philosophy

Accolades & Memberships

- American Society of Clinical Oncology
- American Society of Hematology
- Texas Medical Association

Community Service

- Regular participant in Relay for Life in both Comal and Guadalupe counties
- Actively involved in yearly patient day celebrations at Texas Oncology, New Braunfels.
- Speaker at community events organized by Guadalupe Regional Medical Center

Why did you become a doctor?

As an oncologist, I have a deep desire to change the course of the disease for patients with cancer; cure where possible and when a cure is not possible to extend and improve the quality of life remaining and provide effective palliation of symptoms.

around patient care?

I would like to provide patient-centric responsive and compassionate care by involving families and other caregivers appropriately.
