General Summary

Nayel Khan, M.D., is a board certified otolaryngologist with a specialty in head and neck surgical oncology, robotic head and neck surgery, and microvascular reconstruction. Dr. Khan received his medical doctorate from Baylor College of Medicine in Houston. He completed his residency in otolaryngology at the University of Pittsburgh Medical Center where he completed additional training in translational research under the auspices of an NIH T32 grant. He received advanced training in head and neck surgical oncology, robotic surgery, and microvascular reconstruction at Thomas Jefferson University in Philadelphia, PA. Dr. Khan's areas of expertise include surgical treatment of cancers of the head and neck in a multidisciplinary fashion, robotic treatments of cancers of the oropharynx and larynx, as well as microvascular reconstruction to reconstruct defects and improve postoperative outcomes. He is one of few surgeons trained in these techniques in the South Texas region.

Education

- **Fellowship in Advanced Head and Neck Oncologic Surgery and Microvascular Reconstruction**
Thomas Jefferson University,
Philadelphia, PA
- **Residency in Otolaryngology**
University of Pittsburgh Medical Center,
Pittsburgh, PA
- **Medical Doctorate**
Baylor College of Medicine, Houston, TX

Conditions

- Airway obstruction
- Cancers of unknown primary
- Head and neck cutaneous malignancies including melanoma, squamous cell carcinoma, basal cell carcinoma
- Hyperparathyroidism
- Hyperthyroidism
- Laryngeal cancer
- Nasopharyngeal cancer
- Neck masses
- Oral cavity cancer
- Parathyroid cancer
- Salivary gland tumors
- Sinonasal cancer
- Thyroid cancer
- Thyroid tumors
- Tonsil and base of tongue cancer

Procedures

- Base of tongue resection
- Biopsy
- Central neck dissection
- Coordination with reconstructive/plastic surgery
- Glossectomy
- Laryngoscopy with biopsy
- Lateral neck dissection
- Mandibular resection
- Maxillectomy
- Microvascular reconstructive surgery
- Parathyroidectomy
- Parotidectomy
- Rhinectomy
- Sentinel lymph node biopsy
- Sialendoscopy
- Skin cancer resection
- Skull base surgery
- Soft tissue reconstruction including skin grafts and locoregional reconstruction
- Thyroidectomy

Procedures

- Tonsillectomy
- Total/partial laryngectomy
- Tracheostomy
- Transoral laser surgery
- Transoral robotic surgery

Previous Medical Practice

- Thomas Jefferson University,
Philadelphia, PA

Accolades & Memberships

- American Academy of
Otolaryngology-Head and Neck
Surgery
- American Association for Cancer
Research
- American Head & Neck Society

Community Service

- Birmingham Free Clinic, Director of
Otolaryngology, Pittsburgh, PA (2017-
2022)
