

**Physician**

**Specialties:**

Gynecologic  
Oncology

**Board Certifications:**

Gynecologic Oncology

**Texas Oncology-  
Amarillo Cancer Center**

1826 Point West Pkwy  
Amarillo, TX 79124  
T: 806-358-8654

**Texas Oncology-Midland  
Allison Cancer Center**

400 Rosalind Redfern  
Grover Pkwy., Craddick  
Medical Office Building,  
Suite 100  
Midland, TX 79701  
T: 432-687-1949

**Texas Oncology-Odessa  
West Texas Cancer  
Center**

500 W. 3rd St.  
Odessa, TX 79761  
T: 432-335-8275

**Metro Area:** Panhandle

**Spoken Languages:**

English, Spanish

**Education**

- **Fellowship in Gynecologic Oncology**  
The University of North Carolina at Chapel Hill, Chapel Hill, NC
- **Residency in Obstetrics and Gynecology**  
University of Washington, Seattle, WA
- **Medical Doctorate**  
New York Medical College, Valhalla, NY

**Surgery Locations**

- BSA Hospital
- Northwest Texas Healthcare System

**Research Interest**

Genetics and novel chemotherapeutic agents.

**Other Information**

Dr. Kilgore enjoys spending time with his family and five children, attending sporting events, and outdoor activities.

**Why a patient should choose treatment at your practice?**

We offer the most up to date and advanced surgical techniques and chemotherapeutic agents coupled with compassionate care for individuals and families facing gynecologic cancer.

**What is your personal philosophy around patient care?**

My personal philosophy is that our individual trials in this life do not define us, but our desire to overcome and face those challenges will, in part, define the type of person we become. Thus, I approach each patient knowing that their situation is just as unique as their own diagnosis of cancer. In other words, each of my patients is evaluated and treated as an individual with unique circumstances.

**Conditions**

- Cervical Cancer
- Uterine Cancer
- Endometrial Cancer
- Ovarian Cancer
- Vulvar Cancer
- Vaginal Cancer
- Gestational Trophoblastic Disease
- Fallopian Tube Cancer
- Primary Peritoneal Cancer
- Endometrial Hyperplasia
- Postmenopausal Bleeding
- Uterine Fibroids
- Endometriosis
- Vulvar Dysplasia
- Pelvic Mass/Ovarian Cysts

**Procedures**

- Laparoscopic and Da Vinci Robotic Surgery
- Complex Pelvic Surgery
- Radical surgery for advanced cancers
- Chemotherapeutic and novel biologic treatments for gynecologic cancers
- Sentinel Lymph Node Biopsy
