General Summary

Dr. Saunders helped initiate the prostate seed implant program at Trinity Mother Frances Health System. He also helped develop the first intracoronary brachytherapy program in East Texas to prevent stenosis of intracoronary artery stents. He serves as Regional Area Medical Director for Texas Oncology.

Education

Dr. Saunders received his medical degree in 1988 from the University of Arkansas for Medical Science in Little Rock, where he also completed an internship in 1989. He then completed a residency at Brown Cancer Center in Louisville, Kentucky, in 1992, where he served as chief resident.
