Diaa Osman, D.O., MPH, has specific research interests in clinical trials associated with malignant hematology, lung cancer, head and neck cancers, GI/GU malignancies, and immunotherapy.

Medical Practice

- Minnesota Oncology, Hematology and Oncology Physician, Minneapolis, MN

Other Information

Dr. Osman's hobbies include hiking, jazz music, photography, soccer, travel, and the arts.

Conditions

- General oncology
- Benign and malignant hematology, specifically myelodysplastic and myeloproliferative syndromes, leukemia, lymphoma and multiple myeloma
- Lung cancer
- Head and neck cancer
- Skin cancers such as melanoma, squamous cell and basal cell carcinomas
- Breast cancer
- GI malignancies such as esophageal, gastric, hepatocellular, pancreatic, bile duct, gallbladder, colorectal, and anal cancers
- Genitourinary malignancies such as bladder, urothelial, kidney, prostate and testicular cancers

Practice Philosophy

Every patient deserves a personalized approach to their cancer. My job is to listen and identify the best science available through evidence-based diagnostics, treatments, and clinical trials aimed to address the unique physical, mental, and emotional challenges for each patient. We are here to guide them throughout their cancer journey.
