General Summary

Dr. Lokesh Bathla is a board-certified general surgeon with specialty training in hepato-biliary (HPB) surgery. HPB surgery focuses on treating diseases and cancers of the liver, pancreas, gall bladder and bile ducts.

Dr. Bathla received his medical doctorate from R.N.T. Medical College in Rajasthan, India. He completed residency in general surgery at Maulana Azad Medical College in Delhi, India and Creighton University Medical Center in Omaha, Nebraska. He received advanced training in abdominal organ transplant and HPB surgery at University of Nebraska Medical Center in Omaha, Nebraska.

Prior to joining Texas Oncology, Dr. Bathla worked as a liver transplant and HPB surgeon at Methodist Healthcare System in San Antonio. He has extensive experience in using advanced, minimally invasive, and open surgical techniques to treat cancer and diseases of the liver, pancreas, bile duct, and gall bladder. Dr. Bathla provides thorough evaluations and comprehensive treatment plans in the San Antonio area.

Dr. Bathla is now seeing patients at two locations in San Antonio, where our patients have immediate access to multidisciplinary care including medical oncology, radiation therapy, genetic evaluation, and clinical trials.
