General Summary

C. Lance Cowey, M.D., a medical oncologist at Texas Oncology–Baylor Charles A. Sammons Cancer Center in Dallas, Texas specializes in advanced skin malignancies and genitourinary cancers. He is also a clinical researcher contributing to the development of new FDA approved treatments. His areas of clinical research have included melanoma, basal cell carcinoma, Merkel cell carcinoma, and kidney cancers. Dr. Cowey's research has resulted in over 100 publications and abstracts in a variety of peer-reviewed medical journals and oncology venues.

Dr. Cowey is the co-director of the Baylor Charles A. Sammons Cancer Center Skin Cancer Treatment and Research Center. He also serves as the chair for the melanoma committee for the Sarah Cannon Research Institute and is active in the American Society of Clinical Oncologists and the Southwest Oncology Group.

Education

Dr. Cowey received his medical degree from The University of Texas Medical Branch in Galveston, TX, completed his internal medicine residency at the University of Alabama in Birmingham, and his medical oncology/hematology training at the University of North Carolina in Chapel Hill.

Research Interest

Dr. Cowey has a special interest in genitourinary oncology (renal cell carcinoma, bladder cancer, prostate cancer) and melanoma as well as clinical research interest in genitourinary cancers and melanoma.

Other Information

Outside of practicing medicine Dr. Cowey enjoys spending time with his wife and three children.

Accolades & Memberships

Dr. Cowey is member of American Society of Clinical Oncologists; American Medical Association; Texas Medical Association; American College of Physicians; Howard Hughes Medical Institute Fellowship; Member of The US Oncology Network Genitourinary Cancer Research Committee; Member of The US Oncology Network Developmental Therapeutics Research Committee; Investigator in the Southwest Oncology Group (SWOG) consortium. Dr. Cowey's research has resulted in numerous publications in several peer-reviewed medical journals.
