**General Summary**

With more than 20 years of experience in the field of oncology and more than 10 years of clinical experience in the field of breast cancer, Janice works very closely with patients and families during and after treatment. She is also involved in the care of breast cancer patients participating in clinical trials. Janice supports and participates in patient supportive care programs such as Advance Care Planning, Survivorship, and Therapy Review and Coordination for breast cancer patients. She serves as a guest faculty lecturer and speaks nationally on the topic of breast cancer care and treatment. Her interests are also in nursing research exploring the psychosocial aspects of breast cancer in patients and family.
