English

### General Summary

Teresa L. Trabert, MS, RN, AGNP-C, ACHPN, has more than 23 years of oncology nursing experience. Teresa earned her Master of Science in Nursing from the University of Colorado in Aurora, Colorado.

She began her nursing career at a level one safety net hospital working on the oncology, medical, and surgery unit then transitioned to its outpatient infusion center, where she obtained her Oncology Certified Nurse certification. Teresa later worked at large for-profit hospitals and a blood cancer center treating patients in rural regions.

An advocate for comprehensive cancer care, Teresa returned to the hospital she began her career at to develop a palliative care program. During her eight years as an independent provider, she specialized in palliative medicine and symptom management while obtaining her Adult and Geriatric Primary Care Nurse Practitioner certification.

She now works at Texas Oncology as a nurse practitioner and looks forward to continuing her passion of providing patient care and increasing accessibility to cancer treatment in rural settings.

### Education

- **Master of Science in Nursing**  
University of Colorado, Aurora, CO
- **Bachelor of Science in Nursing**  
Metropolitan State University of Denver,  
Denver, CO

### Research Interest

- Sustainability of Palliative Care  
Principles in the Surgical Intensive Care  
Unit Using a Multi-Faceted Integration  
Model

37, No 4, pp562-569, 2022
- Chemotherapy Induced Neutropenia  
and Relative Dose Intensity: An  
Evidence Based Practice Project
- Oncology Nursing Forum, Vol 34, No 2,  
2007

### What is your personal philosophy around patient care?

Teresa endeavors to work with each patient and their loved ones to establish their desired treatment goals. She believes these goals ultimately define their comprehensive treatment plan and ensure they are receiving the best possible care tailored to their specific cancer.

### Why did you become a nurse practitioner?

Teresa became a nurse practitioner to broaden the scope of her practice and create a larger impact in treating patients with chronic illnesses. She is passionate about patient care and supporting nursing teams who work diligently to provide high-quality cancer care to patients.
