Vietnamese

**General Summary**

Khoan Tuong Vu, M.D., obtained his medical doctorate degree from The University of Texas Southwestern Medical Center. He subsequently completed his internal medicine residency training at Barnes-Jewish Hospital/Washington University in St. Louis and hematology/oncology fellowship at the University of California, San Francisco. During his training, he conducted translational and clinical research in the areas of malignant hematology and bone marrow transplantation which culminated in several publications and presentations at various conferences.

Dr. Vu is privileged to be practicing in the Dallas-Fort Worth area. He strives to provide comprehensive and personalized care to all his patients, integrating the most up-to-date advances in cancer treatments and research. He treats patients with all types of solid tumors including gastrointestinal, genitourinary, head & neck, lung, and breast cancers. His clinical interests are classical hematology and malignant hematology (e.g. leukemia, lymphoma, myeloma).
