General Summary

Honny's clinical experience is in acute care and outpatient physical therapy with specialty in lymphedema, wound care and orthopedics for the adult and geriatric population. Honny initiated the lymphedema program at

Texas Oncology and Texas Breast Specialist in 2014. Honny incorporates fascial cupping, dry needling, complete decongestive therapy and movement based therapy and yoga to attain the highest functional level of oncology patients, therefore improving their quality of life before, during and after treatment.

Education

- **Post Professional Doctor of Physical Therapy**
Des Moines University, Des Moines, IA
- **Bachelor of Science in Physical Therapy**
Emilio Aguinaldo College-Manila, Manila, Philippines

Other Information

I spend my time outside of work devoting time to my two dogs, Scully and Molly, and my two cats, Tamanojo and Mochi. I also love to read, hike, ride my bicycle and do Ashtanga yoga.

What is your personal philosophy around patient care?

"Listen to what your patients have to say, they will tell you what is wrong and what you need to work on."

- Methodist Charlton Medical Center, Physical Therapist, Dallas, TX (September 1993 – April 1995)

Why did you become a nurse practitioner/physician assistant/social worker?

I became a physical therapist because I have always been interested in the human body, how it works, how it gets injured and how to repair it.
