

# A GUIDE TO CREATING YOUR CANCER GAME PLAN

Texas Oncology encourages patients to play an active role in their care through the following steps.

How will this affect my family or work?

## PLAY AN ACTIVE ROLE

Come prepared with questions.

## ESTABLISH TRUST

Your values matter. Shared decision-making is essential to creating the right treatment plan for you.

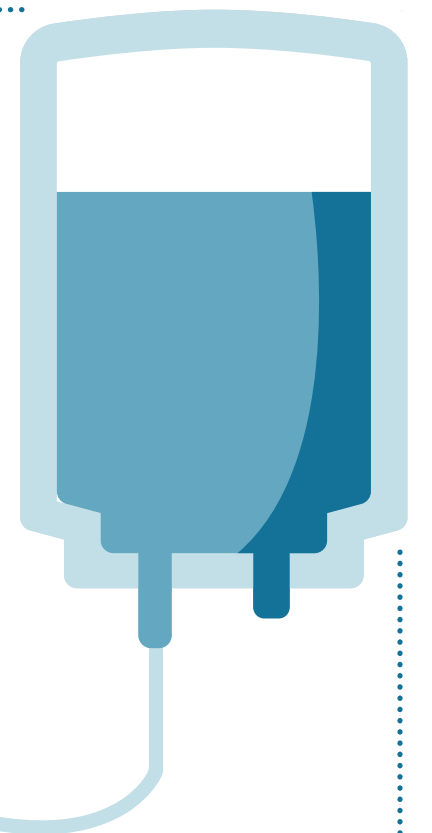

## KNOW YOUR TEAM PLAYERS

Once a treatment plan is determined, you may meet with multiple care team members, which may include advanced practice providers (APPs), financial counselors, social workers, and pharmacists.

## PREPARE FOR TREATMENT

The treatment review and coordination (TRC) visit is the perfect opportunity to ask your care team additional questions and how to prepare.

## ADVOCATE FOR YOUR HEALTH

Optimize your treatment experience by honestly communicating with your care team in-clinic or through the patient portal.
