General Summary

Dr. Eshed is board-certified in obstetrics and gynecology as well as gynecologic oncology. She specializes in the diagnosis, treatment and management of women with gynecologic cancers including cervical, uterine or endometrial, ovarian, vulvar and vaginal cancers as well as gestational trophoblastic disease. Her special interests include research and clinical trials to improve patient outcomes and quality of life. She also educates providers in the community on the newest statistics and advancements in gynecologic oncology treatment and care.

Dr. Eshed provides specialized care while using the latest research and technology to create a comprehensive individualized treatment plan for each of her patients. She is a part of an expert care team at Texas Oncology, working together to help each patient from diagnosis and treatment to survivorship. Her focus for each patient is to provide the best possible care in a supportive, comfortable environment. She treats every patient the way she would treat her mother, sister or daughter. In addition to supporting her patients, Dr. Eshed also spends her personal time participating in charitable cancer related organizations like the Flatwater Foundation and Wonders and Worries. Both organizations not only support the patient, but the family members of the patient, another crucial aspect to the type of care Dr. Eshed provides at Texas Oncology.

Quotes from Online Portal

"Dr. Eshed is outstanding. She was recommended by my GYN and I have been a patient over 2 years now. She takes the time to answer all questions and is extremely knowledgeable. No question is too small. She is patient and understanding. In my experience, she's not rushed to surgeries or extreme measures and looks at all factors while listening and understanding any concerns. She, and all of her staff, are fantastic and I'd definitely recommend."

"Dr. Eshed is a wonderful, dedicated and gifted doctor. I am so blessed to have her as my oncologist. It is because of her that I am still alive today, and that is not an exaggeration. My children and grandchildren are the most precious things to me and I would not hesitate to call on her if in need."

"Dr. Eshed is extremely knowledgeable and I trust her opinion and decisions implicitly. But
