Cancer Center, Houston TX

Other Information

After Dr. Hodges lost his mom at the age of 16 to lymphoma, he decided to pursue a career in medicine helping cancer patients. He was blessed to be accepted to medical school while in high school through a joint program between Baylor University and Baylor College of Medicine. In his free time he enjoys spending time with his wife and four children, being active in his church and enjoys hunting, fishing, golfing and running.

Procedures

- Stereotactic body radiation therapy (SBRT)
- Stereotactic radiosurgery (SRS)
- Intensity modulated radiotherapy (IMRT)
- Image guided radiotherapy (IGRT)
- HDR brachytherapy (skin, cervical, and uterine cancer)
- LDR brachytherapy (prostate cancer)
- Prostate seed implant (precise adaptive intraoperative image guided planning)
- Vision RT Deep Inspiratory Breath Hold for Cardiac Sparing in breast cancer
- Xofigo or Radium 223 for prostate cancer
- Optune/NovoCure for brain cancer
- SpaceOAR
- Over 300+ prostate LDR brachytherapy treatments with highly precise adaptive intraoperative real time image guidance planning
