General Summary

Dr. Soliman was born and raised in the Rio Grande valley and has been committed to bringing compassionate, high quality patient care to the area. After graduating college with honors in New Mexico, he received a full academic scholarship to attend the University of Michigan Medical School, where he graduated top of his class. He then completed his clinical training in radiation oncology at The University of Texas MD Anderson Cancer Center in Houston. Dr. Soliman has performed research on a variety of cancer topics throughout his career and has published work in various medical journals. His areas of clinical practice include prostate, breast, lung, gynecologic, head and neck, skin, and brain cancers.
