Master's in Public Health from Boston University, Boston, Massachusetts (1996), Bachelor of Arts from The Johns Hopkins University, Baltimore, Maryland (1995).

Other Information

I feel that one of the most important aspects of being a good physician is listening to your patient. I am always available to answer questions, talk to family members, and provide support and encouragement to my patients. At the Mesquite and Rockwall offices, I work with a dynamic group of physicians, nurses, and support staff whose goal is to try to make a difficult time in a patient's life a little easier.

Accolades & Memberships

American Society of Clinical Oncology & American Society of Hematology.
