University of Pittsburgh Medical Center, Pittsburgh, PA
- **Medical Doctorate**
University of Wisconsin at Madison School of Medicine, Madison, WI

Dr. Levy also served on the faculty at Sidney Kimmel Comprehensive Cancer Center at Johns Hopkins.

Research Interest

M. Yair Levy, M.D. serves as the director of hematologic malignancies research and specializes in hematology, including lymphoma, myeloma, and leukemia. With many new FDA approvals in hematology therapies, Dr. Levy is proud to have offered clinical trials for his patients before their FDA approvals.

Other Information

Dr. Levy lives in Dallas with his wife, two daughters and their Golden Retriever.

Why a patient should choose treatment at your practice?

Our practice has subspecialty expertise. I only treat hematology (benign and blood cancers). Patient care is very important to me. Our job, as physicians, is to educate our patients on their condition, and guide them through their treatment options. This needs to be individualized to each patient, consistent with their wishes and goals.
