General Summary

Dr. Kimberly Loar received her medical degree from The University of Texas Medical Branch at Galveston and completed her residency training in obstetrics and gynecology at the University of Florida Health Science Center Jacksonville in 2006.

Fluent in Spanish, Dr. Loar is happy to take care of Austin’s growing Spanish speaking population. Dr. Loar has been in practice in Austin since 2009. After retiring from obstetrics in 2020, she has joined Texas Oncology as part of the gynecologic oncology division.

Ypsilanti, MI (2006 – 2009)
- Women's Health Initiative, Research Assistant, Jacksonville, FL (August 2001 – May 2002)

Conditions

Dr. Loar manages the full spectrum of gynecologic disorders and diseases. She is especially interested in dysplasia and pre-malignant disorders of the genital tract as well as hormonal and non-hormonal interventions for the management of menopausal symptoms in both the general population and cancer patients.

Procedures

Dr. Loar has extensive experience in minimally invasive (laparoscopic and da Vinci® robotic) surgery for multiple gynecologic issues. Her training and background affords her the ability to care for patients with a wide variety of gynecological needs.

She is excited to continue to manage not only the wide spectrum of gynecologic issues, but also to be able to specialize in treating vulvar, vaginal, and cervical dysplasia through this partnership. In addition to her hospital surgical practice, she will be offering in-office pelvic ultrasounds, colposcopy, and LEEP procedures.
