General Summary

Dr. William McNamara is board certified in surgery and completed his fellowship training in head and neck surgical oncology at Memorial Sloan Kettering Cancer Center, one of the nation's premier cancer treatment institutes, under the direction of the world authorities in head and neck cancer treatment and reconstruction. He has a special interest in minimally invasive and transoral surgery, robotics, and salivary gland malignancy and surgery.

Education

- **Fellowship in Head and Neck Surgical Oncology**
Memorial Sloan Kettering Cancer Center, New York, NY
- **Residency in General Surgery**
State University of New York at Buffalo School of Medicine, Buffalo, NY
- **Medical Doctorate**
St. George's University School of Medicine, True Blue, Grenada

Other Information

An important goal of Dr. McNamara's is to provide patients with advanced surgical care for head and neck cancer with an emphasis on quality of life issues, such as retaining a patient's ability to speak and swallow and maintaining normal appearance. He works closely with highly skilled and trained plastic surgeons, radiation therapists, chemotherapists, nurses, and speech therapists to create individualized treatment plans that keep the cure of cancer as the main goal.
