Other Information

Dr. Kueck relocated to Austin with her family after many years of teaching and practicing in academic universities. She has an interest in minimally invasive and robotic surgery and has previously served as medical director of robotic surgery. She is chair of a national committee committed to improving health care for underserved women and is dedicated to improving access and quality of care for all women with gynecologic malignancies. She enjoys running—both ultra marathons and after her twin sons!

**National Ovarian Cancer Coalition -
Team Teal**

Conditions

Dr. Kueck specializes in the care of women with gynecologic cancers including cervical, uterine or endometrial, ovarian, vulvar, vaginal cancers, gestational trophoblastic disease.

Procedures

Dr. Kueck has extensive experience in minimally invasive surgery including laparoscopic and da Vinci robotic surgery, complex pelvic surgery, and radical surgery for advanced cancers, as well as chemotherapeutic and novel biologic treatments for gynecologic cancers.
